19 neighborhoods served

Habitat for Humanity-MidOhio is pleased to present this snapshot of accomplishments during fiscal year 2023 (July 1, 2022 through June 30, 2023).

In FY23, we celebrated the end of our Habitat Housing Initiative (HHI). The five-year initiative helped empower 448 families to achieve or save the dream of homeownership! We are pleased to return to a pre-pandemic milestone of serving over 100 families annually (104 in FY23).

After nearly five years of research to identify a location suitable for our third ReStore, we commemorated the opening of ReStore Newark in February 2023. Within these new environs is the Family & Program Center, Powered by the AEP Foundation. This dedicated space will provide an inviting atmosphere for prospective families to work with our Homeowner Services team as they make their way through all the counseling and training every family completes on their way to realizing the dream of owning a home. Thank you to those who championed the cause of the Licking County Habitat Initiative to make this dream a reality.

Lastly, as land consistently becomes more scarce and building material costs continue to rise, Habitat MidOhio persistently explores options for shared-roof housing. This model of homeownership, paired with our single-family homes, will allow us to partner with more families and address the increased demand for more affordable housing.

Thank you for joining us.

E.J. Thomas
Pres. & CEO
